

What is Hazel Health?

Hazel is the most trusted telehealth provider for K-12 schools

Hazel provides school-based physical and mental healthcare access to nearly **2 million students** and counting. Hazel provides telehealth visits with doctors and therapists in school and at home, so students can feel better and get back to learning.

On-demand student access to medical providers

More than 20 million children in the U.S. lack sufficient access to essential health care, and health related issues are the top reason children miss school. With the growing mental health epidemic, even more students are missing valuable learning.

Hazel's team of pediatric experts provides all children with **high-quality, culturally competent care**, helping to increase attendance and improve student health outcomes. Hazel's FERPA/HIPAA-compliant technology is specifically developed for schools to support health services. Each in-school visit with Hazel saves students an average of **3 hours of instructional time**.

Physical health care

With Hazel, students have on-demand access to doctor visits, both at school and at home. **90% of students are able to return safely to class after a visit with a Hazel provider** (based on pre-COVID Hazel data).

Hazel works with families and school nurses to deliver urgent care visits, health screenings, over-the-counter and prescription medicine, follow-up care and consultations, and support family communication across district health policies. **Hazel providers can treat:**
